

Çiğdem Lüle, PhD, FGA, GIA GG, DGA

Mineralogist | Gemologist | Independent Appraiser | Gemological Scholar and Trainer

Dr. Çiğdem Lüle is a highly respected mineralogist and award-winning gemologist with more than two decades of international experience in gemology, mineral appraisal, and professional education. She provides independent appraisal and consultation services for minerals, gems, and jewelry, with a specialty in legal matters and complex collections. Her clients include the **FBI, Securities and Exchange Commission, US Marshals Service, Customs and Border Protection**, as well as major law firms, museums, collectors, and corporations.

Dr. Lüle is qualified as an expert witness and has testified in federal court. Her service mark, **TheGemAppraiserSM**, reflects her commitment to unbiased, high-standard valuation. Through her company, **Kybele LLC**, she also offers tailored gemological education and professional training programs.

Her academic and professional training includes:

- BSc in Geo Engineering, Ankara University, 1995
- MSc and PhD in Mineralogy, Ankara and Hacettepe Universities, Turkey
- FGA and DGA Diplomas, Gemmological Association of Great Britain
- Graduate Gemologist, Gemological Institute of America (GIA), 2005
- USPAP Compliant since 2017

She is an active contributor and leader in the gemological community, having served as Director of Development at Gemworld International, contributing editor for the **GemGuide**, and technical advisor to both the **World of Color** and **ColorCodex** systems. She has received prestigious industry honors, including the **Antonio C. Bonanno Award for Excellence in Gemology (2016)** and the **Catriona McInnes Medal (2019)**.

Her leadership roles include:

- **Executive Director**, Association of Independent Jewellery Valuers (AIJV)
- **Vice President**, Accredited Gemologists Association (AGA)
- Former Committee Member, Scottish Gemmological Association (SGA)
- Co-Chair, World of Gems Conference V

Dr. Lüle is an active member of numerous professional organizations including **AGA, AIJV, NAJA, MSA, CGA**, and **SGA**. She is widely recognized for her integrity, scientific expertise, and commitment to the advancement of gemological knowledge.
